

## NEXANS ITALIA QUALITY POLICY (UNI EN ISO 9001:2015)

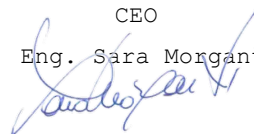

**Nexans Italia S.p.A.** considers customer satisfaction, product quality and safety to be its top priorities to be pursued in compliance with regulatory and legislative requirements.

To this end, **Nexans Italia S.p.A.** undertakes to:

- Maintain the Quality Management System efficient and updated in accordance with the UNI EN ISO 9001:2015 standards and the regulations issued by the relevant government authorities, verifying their implementation at every stage of business processes through specifically trained personnel;
- Supporting the work of the Quality Management Service, giving them the authority and independence necessary to carry out their duties;
- Promote education and training at all levels so that personnel have the necessary knowledge to carry out their tasks in accordance with specific requirements;
- Annually define a corporate strategic plan and set corporate objectives;
- Pursue continuous improvement through the periodic examination of the degree of achievement of the set objectives, including those for safety, and to define new ones for the future;
- Ensure the fulfilment of all requirements applicable to products, services and the quality management system;
- Ensure the availability of adequate resources.

Pioltello, 10/02/2026
